FULL DESCRIPTION OF TRAINING CONTENTS IN THE LANGUAGE OF THE TRAINING: (EN)

Preparation

All participants have to work out questions on intercultural project management to discuss them within the training group. Participants will receive basic information on project management and intercultural communication, pre-course materials and bibliography of study materials before the course. Individual counseling is provided before, during and after the course according to the school/participant's needs.

Objectives

The training course **Project management for cross-cultural exchange projects in Europe** aims to expand the participants' understanding of executing, developing, planning and managing European projects. It will include

- an overview of the relevant European funded programs
- sources of information and helpful indicators to analyze the information about project planning, development and management
- partner search strategies
- partner roles in project management
- project financial management and tools
- monitoring of project
- evaluation, dissemination and valorization strategies
- common problems and how to avoid them
- intercultural communication strategies
- practical implementation of the intercultural methodology for the teaching learning needs as well as for project management and project implementation

The course is aimed to introduce the participants to contemporary innovative methodology with all material provided by the project organizers. The innovative methodology is used by the trainers throughout the course. The Trainer Team is represented by highly qualified trainers with different ethnical, cultural and educational background.

Methodology

The course consists of 48 hours and offers theoretical as well as practical activities. The methodology will be based on the integration of theory and practice as well as sharing expertise and analyzing case studies. The following methods will be applied:

- plenary
- discussions in pairs and small groups
- group work activities
- role plays
- interactive poster sessions
- workshops
- case studies
- presentations
- brainstorming
- innovative methods

Follow-up

After the course the participants will exchange their project management experience on the course platform as well ask questions they are interested in. They will also disseminate the experience and knowledge gained in their schools, via in-service training courses, methodological groups and associations. The international instructors from different EU countries will also be available after the course to provide individual assistance. The Training Team stays in contact with the participants and is ready to help, advise, support and supervise
